

# The InSinkErator® Showroom Collection **2020**

Steaming hot water taps and  
food waste disposers to bring  
style and convenience to  
your kitchen

SHOWROOM  
COLLECTION

in sink erator®

“  
An InSinkErator® tap is not just  
about style. It's the ultimate in  
contemporary kitchen convenience.

” Graham Robinson, Halcyon Interiors.

3N1 Brushed Gold, L Shape, Halcyon Interiors, London.

Long recognised as the market leader and world's largest manufacturer of food waste disposers, InSinkErator® has also established a strong and growing reputation for its high quality steaming hot water taps.

Designed for modern living and to suit kitchens from the contemporary to traditional, the food waste disposers and taps in the Showroom Collection have special features and finishes and can be relied on to provide real benefits from convenience to hygiene - especially to people with busy lifestyles.

Created for kitchen specialists, since its launch, the Showroom Collection has been embraced by our distribution partners who represent the best kitchen retailers in the UK.

“ Once our customers experience what an Evolution disposer brings to their life, they would never be without one.

” **Michael Dobson.** Court Homemakers, Stockton on Tees.

## A food waste disposer can wash unsightly food waste clean away

An InSinkErator® food waste disposer allows food waste to be dealt with instantly, hygienically and in a sustainable manner. Leftovers from food preparation or meals are ground into fine particles which are then rinsed away safely down the drain.

Self-cleaning and made to last from premium materials, they are designed to sit neatly under your sink.

Without the use of blades, all disposers will make short work of everything an amateur chef or busy family might throw at them, whilst saving space and reducing the amount of waste going to landfill.

## Sustainable solution

Whilst prevention of food waste is key there is always unavoidable waste from food preparation or leftovers. As a result, all too often in a throw-away society, food waste ends-up in landfill where it contributes to the release of harmful methane into the environment. Modern food waste disposers represent a sustainable solution when home composting is not available.

## Introducing the slimline E75 disposer

For compact kitchens where space is limited, at just 18.5 cm in diameter, the new E75 disposer is the perfect fit.

## Food waste disposers - a responsible choice

Instead of going to landfill, food waste can yield valuable biogas and other vital soil nutrients which can be recovered at the wastewater plant.

Your food waste is ground into tiny particles by your InSinkErator® disposer...

These are flushed through your plumbing to wastewater treatment...

Where they can yield valuable biogas

...and fertilizer for agriculture

## Showroom Collection food waste disposers

### Air switch included

The remote push button next to the sink uses air pressure to activate the food waste disposer. Offering a full range of premium finishes (chrome, brushed steel and matte black).

“ To complement a Poggenpohl kitchen, only the highest standards are good enough. The Showroom Collection taps and disposers are perfect. ”

Marco Antonelli. Poggenpohl, Milan.

DESIGNED & MADE IN ITALY

## Premium 4N1 taps

Filtered cold water at the touch of a button. Along with filtered steaming hot and regular hot and cold water.

Our 4N1 taps offer the ultimate in kitchen convenience. As well as dispensing regular hot and cold water, they also offer filtered steaming hot and cold water.

Filtered steaming hot water is perfect for instant hot drinks and helps with numerous kitchen tasks, whilst the filtered cold water means no more bottled water or filter jugs.

- Touch button technology for filtered ambient water
- Smooth laminar flow of instant steaming hot water up to 99 degrees
- Tap comes complete with space-saving tank and filter
- Five year tap parts and labour limited warranty
- Two year tank parts and labour limited warranty
- Premium Italian design and manufacture
- Choice of three designs and finishes - contemporary L shape, the classical J shape or the industrial U shape in either Polished Chrome, Brushed Steel or Velvet Black

Filtered cold water flow at the touch of a button

**Now available with NeoChiller technology**  
You can now choose to have your cold water refreshingly chilled and filtered thanks to the InSinkErator® NeoChiller which sits alongside your NeoTank under the sink.

DESIGNED & MADE IN ITALY

## Premium 3N1 taps

Hot, cold and filtered steaming hot water. Luxury and convenience at your fingertips

Premium Italian design with exclusive finishes and the highest manufacturing standards combine to create the superb 3N1 range.

- Replaces the kettle and streamlines your kitchen worktops
- Smooth laminar flow of instant steaming hot water up to 99 degrees
- Time saving
- Tap comes complete with space-saving tank and filter
- Five year tap parts and labour limited warranty
- Two year tank parts and labour limited warranty

“ The quality and value of the 3N1 hot tap from the Showroom Collection make it an essential for every kitchen.

” Graham Robinson. Halcyon Interiors, London.

### The L Shape and the J Shape

Only available from the Showroom Collection, the 3N1 L shape is available in Brushed Gold and the J Shape in Rose Gold. Other special edition finishes include Polished Chrome, Brushed Steel and Chrome with black spout.

### Additional taps

**3300 - Special Edition**  
Our modern black range taps are designed to complement premium modern kitchens.

# The Showroom Collection hot taps

**Safe**  
All of our steaming hot water taps are protected by a locking safety lever.

**Energy efficient**  
An InSinkErator® steaming hot water tap uses less energy than a 40-watt light bulb.

Add NeoChiller to your 4N1 tap for perfectly chilled and filtered water  
**RRP: £499**

Hygiene should be paramount in any kitchen. Adding a soap dispenser to your sink ensures cleanliness and, since they are specially designed to complement our taps, keeps your space looking state of the art.

## NeoTank and NeoChiller

### NeoTank

Specially designed along with our filters to maximise the efficiency and longevity of InSinkErator® taps, the NeoTank delivers instant steaming hot water. The innovative 2.5 litre design features a digital touch screen thermostat control enabling users to set the water temperature between 88°C and 99°C, the perfect temperature for hot drinks.

NeoTank® dimensions (mm):  
Height: 310. Width: 157. Depth: 206

### NeoChiller

The high performance under counter NeoChiller is compatible with our 4N1 Touch, C1100, FHC3010 and FHC3020 models. It dispenses perfectly chilled and filtered water with no unpleasant taste and odours. It can dispense up to 7 litres per hour of cold still water between 3°C and 10°C eliminating bottled water or filter jugs, decluttering your kitchen.

RRP: £499

NeoChiller dimensions (mm):  
Height: 407. Width: 235. Depth: 260

## Our customer service promise

When you buy InSinkErator® Showroom Collection products, you can buy with complete confidence. Our taps and disposers undergo exhaustive testing to meet both our own and wider industry approvals and standards.

### Extended warranties

As a result of our experience of manufacturing and selling kitchen appliances over many years, we are able to offer our customers extended warranties, from five years on our hot taps through to seven and eight years on our disposer models.

If something were to go wrong, it's an easy process and our specialist service agents 'come to you' to make sure your InSinkErator® appliances are working exactly as they should.

We are rated 'Excellent' on Trustpilot
